Skilled and Technical Sciences Contests

State Qualifying Conference Contest Information

State Qualifying Event: Yes

National Contest: Yes

Participation: Individual

Contest Description

This competition evaluates the competitors' techniques and professionalism in the field of skin care. Areas of testing include a student kit check, an oral skin assessment, a written exam covering the fundamentals of skin care, sanitation, skin analysis, a hands-on basic facial demonstration, facial massage and a beauty and fantasy makeup

Skills Performance

During the contest students will be asked to give an oral exam that is used to demonstrate their verbal presentation skills. Their technical skills will be tested in massage, basic facial and day time makeup application. The oral presentation consists of a client consultation, which can include: skin analysis, suggested facial treatments and beauty makeup product knowledge prior to application. Students will need to follow proper sanitation regulations while they continue through the contest. You will lose points in the service you are providing if you do not follow proper regulations. The basic facial will consist of proper cleansing of the face, simulated steaming of the face and facial mask. The student will then move on to the facial massage after the basic facial. The contest will be explained further before you complete them.

1. Oral Exam
2. Basic Facial
3. Daytime Makeup
