

# Healthcare PATHWAYS

CAREER EXPERIENCE

**April 12 • Methodist College - Peoria, IL**

Experience the first Healthcare Pathways: Career Experience, presented by SkillsUSA Illinois in partnership with Carle Health and Methodist College. Open to schools statewide, with a special emphasis on Central Illinois, this event is set to create a new way young talent connects with leading healthcare employers in the region.

Students will have an exclusive opportunity to network with industry leaders who are actively seeking to recruit and mentor the next generation of healthcare professionals. Our mission is clear: to bridge the gap between students eager to embark on their career journey and employers ready to provide invaluable guidance and employment opportunities.

## REGISTRATION INFORMATION

Registration closes April 3. More information including a tentative schedule and registration can be found at [www.skillsusaillinois.org/career-experiences](http://www.skillsusaillinois.org/career-experiences)

## ATTENDEE EXPERIENCES

### Surgical Technician

Get hands-on with surgical instruments and witness their use in action.

### Respiratory

Explore intubation instruments, oxygen administration, and inflate pigs' lungs using a handheld resuscitation bag.

### Poverty Simulation/ Social Work

Navigate scenarios, manage budgets, and explore community resources in simulated healthcare scenarios.

### Nursing/HCT

Assess patients, identify simulated health issues, and practice vital skills like CPR and patient assessment.

### Introduction to Healthcare and Phlebotomy

Identify errors in a patient setting and observe phlebotomy procedures for a practical learning experience.
